Reading Part 1

Growing flowers at home

Fill in the gaps with the correct missing words.

Growing flowers at home is a wonderful hobby. It is not difficult to grow plants at **(1)** _____, as many people think. The first step is to choose right space for **(2)** _____. Most plants need enough sunlight to grow properly, but some plants grow better in shade places. The next important thing is choosing the right soil. Good-quality **(3)** _____ provides plants with nutrients. You should also give your plants enough water. However, some plants need **(4)** _____ more than others. If you use a pot, remember to make a hole at the bottom. This **(5)** _____ allows extra water to drain away and protects roots. Finally, check your plants regularly. There are sometimes drying leaves of the plants. You should remove dead **(6)** _____ to preserve plants in a good condition. If you are planning to grow plants and flowers, you need to follow these instructions above.

Answer key

1. home **2.** plants **3.** soil **4.** water **5.** hole **6.** leaves
